

# One-Piece Retention Packaging

safetyBag®

Gut verpackt

A special stretch mechanism ensures that the stretch film fixes the product firmly to the corrugated cardboard format and prevents slipping. Since the film is attached to the box there is no need for extra packaging.

## Your advantages

- Packed ready in 10 seconds!
- optimum protection for the most varied products and contours
- re-usability thanks to the films excellent high resilience and elasticity
- environmental sustainability (disposal with waste paper)
- professional appearance

Several process costs can be minimized thanks to retention packaging. (e.g. for purchase, storage, damages in transit, waste disposal, etc.)

Due to flexible films even round, pointed or oddly-shaped objects of different sizes can be safely packed. Hollow spaces can be used for storing accessories or manuals.
